

Day in the Life 4th Grade

Welcome

We approach each day with love in our hearts. We work on forming good habits, persisting until we succeed and laughing often! We begin each day with praising and thanking God. We read the word of the day, recite prayers, and explore Bible stories.

All About Us

The Fourth Grade year encompasses a broad range of skills, both academic and personal, to prepare students for the Fifth Grade and beyond. Lessons in our day include Language Arts, Math, Science, Social Studies, Technology, Religion, and a variety of arts and activities. The curriculum is outcome-based, using an assortment of hands-on projects in order to educate and create curious, lifelong learners. Projects throughout the year are thematic and cover a wide range of subjects. Students enjoy creating, building, and presenting projects. Technology such as iPads and the Clear Touch Board provide an interactive and collaborative setting for learning. Another primary focus of our classroom is the connections students make with each other throughout the year. Their day is focused on living a Christ filled life and always having Jesus in their hearts.
