

A Day in the Life 5th Grade

Our Classroom

Students are welcomed with a smile as we prepare for the day with our morning routine. The first lesson is religion which helps us set the tone for the day in our Christ-centered environment. Students learn Liturgy, Sacraments, and how to live our lives through Christ. Our day continues with Reading and Language Arts. Students practice reading, writing, speaking, grammar and punctuation skills throughout the year. Math class includes algebra, fractions, data, and geometry. Before lunch children enjoy one of our Specials. Lunch is where students can enjoy time with friends and lunch purchased from our delicious cafeteria or a lunch brought from home. We finish our day with Science and Social Studies. Social Studies includes geography, American History, Civics, and Government. Science touches on the topics of Earth, Space, Physical and Life Sciences!

Routines

- School-Wide, student-led Morning Announcements with prayers, pledge, mission
- Morning assignments: students work individually on an assignment reinforcing a learned skill or strategy..
- IXL : reinforce lessons learned and close gaps for all student levels.
