

A Day in the Life of 3rd Grade

Our Classroom

Third Grade is a year of love, laughter and learning how to be a kind individual. It's our classroom theme! Students are met each morning with a smile and a greeting of their choice. We focus Language Arts on stories that fit both the students' level and interest. We usually review comprehension by having partner discussions. Math is diversified by sometimes working as a whole class, other times in group or partners, as well as individually to appreciate everyone's differentiated thinking. Lunch and recess are a time when students enjoy sitting with friends and playing together. Science and Social Studies are hands-on with many group discussions and experiments. We finish our day with Religion and learning about the many wonders of God.

OUR MORNING ROUTINE:

- Prayers
- School Announcements
- Attendance & Lunch Count
- Morning Meeting
