

# LIBRARY

The library is an extension and continuation of student's classrooms. All students, Pre-K to 8th Grade, attend Library class once a week. During their time in the library, students learn basic rules and procedures of the library and literature appreciation where recreational reading is encouraged. They learn age-appropriate strategies needed to access and evaluate information that is used in collaboration with classroom assignments. Pre-K to 5th Grade students enjoy listening to books read aloud in the amphitheater and completing an activity to review elements of that book. While Middle School students participate in D.E.A.R (Drop Everything and Read), Kahoots, Quizizz and work on research projects.

## OUR RESOURCES

- Over 10,000 Books available
- Technology- Computers & Clear Touch Board
- Weekly Book Check-Out
- AR Books - to challenge reading levels & comprehension

# TECHNOLOGY

Students Kindergarten to 8th Grade attend one Technology class each week. Classes are held in the school's Computer Lab. All Technology lessons are integrated into the classroom curriculum. Teachers work closely with the Technology teacher to ensure all skills and lessons coincide with the classroom's instruction.

K - 2

- Basic Computer Components
- Keyboard & Mouse Skills
- Drawing & Publishing
- Online Exploration: building on reading, math and social studies skills

3 - 5

- Intermediate Computer Components
- Touch Typing
- Word Processing
- Drawing & Presentations
- Introduction to Spreadsheets & Coding
- Online Exploration: building on reading, math and social studies skills

6 - 8

- Touch Typing, Shortcut Keys
- Online Course Instruction: Web Research, Online Safety
- Spreadsheets & Presentations
- Coding
- Online Exploration: building on reading, math and social studies skills
